WHAT RENOVEREND CONSTRUCTION COMPANY CAN DO FOR YOU

Renovation

Have you purchased a house or does your current apartment require maintenance? Don't delay this task any longer and hire professionals from Renoverend. We have over 18 years of experience in performing complete home renovations and remodeling of office buildings, shops, and restaurants in the Randstad area.

Remodeling

Are you planning to renovate your house? Naturally, this involves many tasks; from prepping the work to executing the remodeling itself. Renoverend has the right specialists for various types of complete renovations. Our professionals have years of experience in renovating homes, offices, shops, and other types of spaces. By selecting Renoverend, you're choosing expertise, communication, and a sustainable approach.

Painting and plastering

Painting the exterior of the house? Giving the interior walls a new color? Perhaps a new wallpaper in the bedroom? Or maybe you would like the walls to be textured or plastered? Leave it to one of our experienced painters or plasterers. Renoverend is happy to take on the task and make your home or office look brand new again. We exclusively work with paint and construction materials from top brands to achieve the best results.

Carpentry

Are you planning to have a beautiful, atmospheric wooden staircase or a practical walk-in closet installed in your bedroom? Our skilled carpenters will bring your plans to life according to your wishes. Building a veranda, a garden gazebo, or a shed requires specialized craftsmanship. Leave the execution of these tasks to Renoverend's professionals.

Plumbing

Changing water pipes? Installing gas pipes? Replacing a shower faucet? Installing a bathtub? Clogged dishwashers? Our certified plumbers, who work exclusively with the best tools, can handle this without any problems! Remodeling complete bathrooms, kitchens, and toilets is also a task for our skilled professionals. You don't have to worry about a thing.

Installation

New radiators in the living room? The installers at Renoverend will be happy to connect various heating sources, such as radiators, convector heaters, boilers, and solar boilers. Renoverend is also the right place when it comes to laying and connecting underfloor heating.

Electrician

Installing wiring, expanding circuits, replacing switches, hanging lamps, installing new outlets, lightning protection, or installing an alarm system – each of these tasks is something you wouldn't want to risk. It's much better to leave it to one of our versatile electricians. They have all the necessary expertise to quickly and, above all, safely handle all your electrical installations.

Tiling

Tiles in the bathroom, kitchen, or toilet largely determine the ambiance. Our experienced tile setters will ensure that the tiles of your choice create the desired atmosphere in every living space. Regardless of whether you opt for natural stone tiles or ceramic tiles: thanks to our dedicated craftsmen with an eye for detail, you're guaranteed a perfect end result that you'll enjoy for years to come.

OUR APPROACH

Contact **Appointment** **Quote** **Project execution**

**For every renovation or construction project, we guide you step by step towards a perfect end result, from the initial idea to the completion.
Here is our approach:**

WHAT CUSTOMERS SAY ABOUT US

After several negative experiences with painters, we found Robert through Marktplaats. Robert is involved, honest, and keeps his promises. We will definitely ask Robert to come back in a few months to do the bathroom. If you still have doubts about choosing Robert, you can ask him for my home address (Scheveningen) to come and inspect the exterior! Warm regards.

HANNEKE & ROELAND

Two weeks ago, we had the entire exterior of our house painted. Despite the fact that it was 32 degrees outside, the work was done very efficiently, and the job was completed in no time. Very modest and tidy painters! Thank you for the beautiful result!

VISSER

Last week, Renoverend's employees sanded and painted the exterior of my house. Excellent service, craftsmanship, mutual respect, and above all, hard and skilled work. I read the word 'refreshing' in another review, and I completely agree. Trust is high on Robert and his team's priority list. I can and will definitely recommend this company wherever I can. Thank you!

By working with trusted financial partners, Kredyt.nl offers fair conditions, clear terms, and a quick, straightforward application process – making it easier to bring your renovation plans to life.

FREQUENTLY ASKED QUESTIONS

What are your working hours?

Our skilled professionals work from 8:00 a.m. to 6:00 p.m. from Monday to Friday. On Saturdays, they work from 9:00 a.m. to 3:00 p.m. Thanks to the flexible availability of our workers during these extensive working hours, you can always be assured that your renovation or construction project will be executed promptly and professionally.

What language do your employees speak?

All our specialists communicate in Dutch or English, as well as Spanish, Polish, and Ukrainian, so communication is never a problem. Each project is also assigned a dedicated coordinator who visits the work site at least once a week to monitor progress.
The coordinator speaks Dutch and English, allowing them to respond to all your questions quickly and professionally. If you have additional concerns, you can always contact the company owner directly, who also speaks Polish.

How can I dispose of demolition and construction waste?

Virtually every renovation or construction project generates demolition and construction waste. You can easily dispose of this waste by renting a waste container from us, which will be placed at your residence during the construction project. Of course, you can also choose to transport the waste yourself to the waste disposal site or environmental station of your municipality. Furthermore, our employees always leave their workspace neatly organized at the end of each day, even after the project is completed. This ensures that you as a customer are never unpleasantly surprised and can count on a guaranteed clean handover.

Who covers the parking costs for the craftsmen?

If you reside in an area with paid parking, the parking costs incurred by our craftsmen will be billed to you as the customer. The expenses for a day pass will then be passed on to you. However, if our employees are present at your location for a renovation or construction project for a week or more, you will find it significantly more cost-effective to apply for a temporary parking permit from your municipality. For this purpose, we provide you with the license plate number of our company vehicle in advance. Subsequently, you can easily apply for a temporary parking permit online from your municipality using that license plate number, such as in the form of a weekly or monthly pass. This way, you can effectively manage the parking costs.

Can Renoverend also supply the materials for my project?

Yes, we collaborate with wholesalers where we can purchase our materials at wholesale prices for your project. Most basic materials are available at the wholesaler we work with. Please be aware that we cannot predict and have no influence over sudden price increases in materials.

Which materials can we not supply for your project?

Finish materials are not included in your project. You will need to purchase these materials yourself. Finish materials include: floors, tiles, toilet bowls, faucets, showers, windows, doors and posts, door handles, lamps/spots, electrical outlets, switches, etc.

What does the start of my project look like?

If you accept our quote, we would like to know your preferred start date for the project. We will confirm the start date of your project as soon as possible. One week before your project is due to start, the project coordinator will contact you and make arrangements with you. You will need to pay the coordinator in advance for the initial materials needed to start the project. The coordinator will also confirm this with you during the arrangements.

Interested in receiving free advice from our construction specialists?

Fill out our contact form today! Our construction specialists will promptly get in touch with you to schedule a free appointment and send you a completely non-binding price quote.
